CAREER PATHS FOR SKILLED IMMIGRANTS

Career Paths for Skilled Immigrants helps professionals use their skills, training, and foreign-earned qualifications for work in British Columbia. Supports offered include career planning and job search workshops, occupation Specific Language Training (OSLT), funded skills and academic upgrading, networking, and work placement opportunities.

Newcomers to Canada struggle to gain entry to the workplace. It is a challenge to translate their skills, qualifications and experiences in a way that local employers will value. The MOSAIC Career Paths for Skilled Immigrants program helps to bridge that gap.

The program is having a positive impact on our clients. It has increased their confidence to find employment aligned with their education and pre-arrival experience and skills. One of our clients expressed the impact of the program - "I would like to express my gratitude to MOSAIC for the amazing Career Paths program, it is truly an amazing program which not only supports you financially but also provides moral support, much needed motivation, and guidance to steer your path as a newcomer to Canada. A special thanks to the whole team especially to the career advisor, for being a great advisor guide and mentor, and all the support staff for providing this institutional support."

We survey our clients who have participated in the program. These consistently find that 90% are satisfied with the quality of services provided through the Career Paths program. The majority would recommend the program to their friends and family.

Career Paths for Skilled Immigrants is funded by the Province of British Columbia and Immigration, Refugees and Citizenship Canada.
